

ASGE Ambassador Program Donation Form

The ASGE Ambassador Program is a philanthropic initiative designed to export two of our Society's greatest assets endoscopic medical care and training expertise – to centers around the world in need of such care. Direct access to advanced GI care does not exist in developing countries. Educating and training physicians in underserved countries provides an opportunity for ASGE and its Ambassadors, to have an enduring effect in these areas.

Ambassadors travel to an international destination for a period of 10-14 days to work long hours in a hospital or clinic teaching physicians and their support teams varying levels of gastrointestinal/endoscopic techniques, depending on that facility's particular need. In addition, Ambassadors will assist in treating patients who might not otherwise have access to modern endoscopic procedures.

The program will be completely funded through the generous support of industry and private donations. Travel, housing, meals and medical equipment are provided by ASGE. Your support is urgently needed and most appreciated. Please use this form to make your donation today.
