

American Society for
Gastrointestinal Endoscopy

Gastroenterology and Artificial Intelligence: Global Summit

September 25, 2021

Virtual

Explore the current and future state of artificial intelligence in gastroenterology at the ***Gastroenterology and Artificial Intelligence: Global Summit***. Discuss challenges facing AI in GI, how to apply AI to your daily endoscopy practice and clinical applications. Experts in the field of AI from companies including Microsoft, Amazon, the U.S. Food and Drug Administration and more will present on topics such as:

- AI and Medicine: State of the Art
- Opportunity to Redefine Quality Metrics in Endoscopy Using AI
- FDA and Regulatory Requirements
- How to Implement AI in Your Practice and Who Will Pay for It
- Utilizing AI and ML in IBD Diagnosis and Prognostication
