2021 ASGE ANNUAL POSTGRADUATE COURSE

April 24, 2021

WHY YOU SHOULD PARTICIPATE

The framework for this year's course is based upon the "A Day in the Life of an Endoscopist," where we proceed from one case to another with a blended approach of video case-based presentations, followed by supporting best practices.

Over 20 world-renowned faculty have curated their premier videos from the top live endoscopy courses worldwide to share with you. Panelists will challenge presenters on their selection of techniques and technologies, highlighting evidence-based practice guidelines to enhance the quality of care.

Maximize your learning experience with video case-based instruction, live panel discussions with audience participation and didactic lectures.

WHAT YOU WILL LEARN

Upon completion of this educational activity, you will be able to:

- Identify the best approach to the management of complex endoscopic challenges presented
- Compare and contrast new and updated endoscopic techniques to enhance patient outcomes in common disease states
- List quality standards used for best clinical practice in selected endoscopic techniques
- Appraise the value of emerging technologies in gastrointestinal endoscopy

CONTINUING MEDICAL EDUCATION

The American Society for Gastrointestinal Endoscopy (ASGE) is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

ASGE designates this live activity for a maximum of 9 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

MAINTENANCE OF CERTIFICATION

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 9 Medical Knowledge MOC points in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit.
