ASGE – JGES Masters Course in ESD with optional POEM add-on

JULY 28 – 30, 2017

ASGE Institute for Training and Technology
Downers Grove, Illinois

Early Registration Discounts End June 15th

A unique opportunity to learn from known masters of ESD and POEM

The American Society for Gastrointestinal Endoscopy (ASGE) and the Japan Gastroenterological Endoscopy Society (JGES) invite you to participate in this one-of-a-kind immersion course in endoscopic submucosal dissection (ESD) taught by highly skilled experts, representing the largest team of outstanding masters in ESD ever assembled in this country.

This two-day course, which will be held at the state-of-the-art ASGE Institute for Training and Technology (IT&T), has been developed to provide a comprehensive experience in ESD that will take the advanced endoscopist from theory to the hands-on practice of ESD, discussing and demonstrating the fine points of the technique.

What you will learn:

ASGE and JGES have collaborated to bring advanced techniques to endoscopists in the U.S. The course will include presentations from the faculty covering indications for ESD and differing methods of ESD followed by demonstrations of these techniques by the ESD Masters in *ex vivo* and animate models. Participants will engage in intensive hands-on experience with expert teachers. The goal of this course will be to familiarize the attendees with aspects of ESD that have not been taught before, such as treatment of GI bleeding during ESD using devices including the hemostatic forceps and clips.

Who should attend:

This course is designed for advanced GI endoscopists, surgeons, and others in the GI field who are interested in learning the most advanced technique in mucosal resection.

**Registration is limited to ensure ample
opportunity for hands-on experience.**

Course Directors

Norio Fukami, MD, FASGE

Mayo Clinic
Scottsdale, Arizona

Haruhiro Inoue, MD, PhD, FASGE

Showa University Koto Toyosu Hospital
Tokyo, Japan

Course Highlights

- Presentations covering indications for ESD and differing methods of the technique
- Demonstrations of these techniques by the ESD masters using *ex vivo* and animate models
- Intensive hands-on experience with expert faculty
- Exposure to aspects of ESD rarely taught in the US, including treatment of GI bleeding during ESD using devices including the hemostatic forceps and clips
- Exclusive add-on opportunity to perform the POEM procedure

Optional
POEM ADD-ON

An exclusive add-on opportunity taking place on Sunday, July 30, will allow a limited number of participants to perform the Per-oral Endoscopic Myotomy (POEM) technique using animate models (*additional fee required*).

AGENDA

SUBJECT TO CHANGE

ASGE – JGES Masters Course in ESD with optional POEM add-on

FRIDAY, JULY 28, 2017 | 7:00 AM – 6:45 PM

Introduction and Overview • Course Directors

Indications for ESD

Esophagus • Haruhiro Inoue, MD, PhD, FASGE

Stomach • Hironori Yamamoto, MD, FASGE

Colon • Yutaka Saito, MD, PhD, FASGE

ESD: Basic Techniques • Hironori Yamamoto, MD, FASGE

ESD: Electrosurgical Generator • Norio Fukami, MD, FASGE

ESD Knives: Features and Benefits • Naohisa Yahagi, MD, PhD

Didactic Sessions

This case-based session will include an initial discussion of lesion identification and marking for ESD procedures, and to discuss organ-specific considerations. Closure and hemostasis techniques will also be discussed in the face of mucosal removal.

- Identification, Marking, and Injection of Lesions
- Colorectal ESD
- Esophageal and Gastric ESD
- Case Discussions: ESD Management with the Masters

Hands-On Sessions

Participants will work on excised porcine stomachs to involve careful introduction to various devices and initiation of incisions. It is anticipated that two knives will be taught at each station. Stations will include injection and marking, and circumferential incision and submucosal dissection (hook, dual, flush knife, IT, hybrid).

SATURDAY, JULY 29, 2017 | 8:00 AM - 5:15 PM

Didactic Sessions

This didactic session will concentrate on the finer points of ESD, including case-based illustrations of the problems that can occur in ESD. Description of the submucosal tunneling methods will be covered as well as performing the myotomy.

- Generator Settings: Case Study
- Adverse Events of ESD: Hemostasis, Perforation
- Implement ESD in the Western Practice
- Case Discussions: ESD Management with the Masters

Hands-On Sessions

All participants will have an opportunity to perform a complete ESD procedure under expert guidance using an animate model. Models will be heparinized and hemoclips will be available for sealing perforations during procedures.

SUNDAY, JULY 30, 2017 | 7:15 AM - 12:00 PM

OPTIONAL ADD-ON: POEM Hands-on Course

(limited to 32 participants; additional fee)

Overview of the POEM Procedure • Haruhiro Inoue, MD, PhD, FASGE

POEM Hands-On Sessions

- Creation of entry site
- Submucosal tunneling
- Myotomy
- GE Junction issues
- Gastric tunneling
- Tunnel closure
