DEAR ASGE COLLEAGUE:

The 2017 ASGE Annual Postgraduate Course will be held Sunday afternoon and Monday morning, May 7-8. As you make your plans for DDW 2017 in Chicago, IL, it is our great pleasure to invite you to register for this year's program, *Best Tips, Worst Mistakes: Lessons from the Masters*. You can choose to attend the entire course over both days or in half-day intervals to suit both your interests and your schedule. Course highlights include:

- **State-of-the-art, evidence-based lectures** on diverse topics including, but not limited to, the top 5 technologies to add to your practice; maximizing biliary success; the “dos and don’ts” of endoscopic therapy for non-variceal upper GI bleeding; best tips for polypectomy and EMR; effective and efficient eradication of dysplastic Barrett’s esophagus; and novel interventions such as bariatric endoscopy.
- **Expert approaches to endoscopic problems**—providing management tips and tricks for a variety of GI diseases
- **Collaborative learning** through video-based case discussions to discuss controversies and contrast alternative approaches used in endoscopic practice
- **Methodologies for recognizing and minimizing** adverse events and new management options
- **Earn AMA PRA Category 1 Credit™ and ABIM MOC Points**
- **Option to register** for each half-day separately or register for full course at a discount

Join us in Chicago for lessons from the masters! To plan your trip to Chicago, visit www.asge.org/DDW. In addition, ASGE will be offering several Hands-On Sessions at DDW, providing an opportunity for participants to interact with expert faculty as they demonstrate cutting-edge techniques. To register for the ASGE Annual Postgraduate Course and the Hands-On Sessions, visit www.DDW.org. Early registration discounts end March 22, so register now to save.

We look forward to seeing you in Chicago!

Amitabh Chak, MD, FASGE
Elizabeth Rajan, MD, FASGE
Douglas K. Rex, MD, FASGE

WHY YOU SHOULD PARTICIPATE

This course will feature lectures, video-based case discussions and audience interaction with Q&A. Key features include tips, tricks and worst mistakes related to gastrointestinal endoscopy from internationally renowned experts. Learn how to approach common endoscopic problems, recognize pitfalls and incorporate new modalities into your clinical practice. Evidence-based practice, endoscopic challenges and emerging technologies will be highlighted. A variety of gastrointestinal conditions will be discussed, including Barrett's esophagus, colorectal neoplasia, pancreaticobiliary diseases, inflammatory bowel disease and gastrointestinal bleeding, as well as novel interventions, such as bariatric endoscopy.

WHAT YOU WILL LEARN

Upon completion of this educational activity, participants will be able to:

- Describe techniques to improve the endoscopic management of a variety of GI diseases.
- Identify tools and tricks that could improve your endoscopic procedural performance.
- Compare and contrast clinical challenges encountered during endoscopic practice.
- Assess which emerging technologies are most appropriate for your clinical needs and any potential system barriers that would prevent you from implementing them into your practice.

WHO SHOULD ATTEND

All gastroenterologists from U.S.-based and international practices and their care team (endoscopy nurses and technicians) should attend. We anticipate topics to be very relevant to surgical endoscopists and GI fellows and trainees.
