2020 ASGE ANNUAL POSTGRADUATE COURSE

Endoscopy 2020 and beyond: integrating innovation, evidence-based clinical practice and expert opinion

Sunday-Monday, May 3-4, 2020

McCormick Place
Chicago, Illinois

Held in conjunction with DDW 2020

Course Directors

Prabhleen Chahal, MD, FASGE
The Cleveland Clinic Foundation, Cleveland, Ohio

Mouen A. Khashab, MD
Johns Hopkins University, Baltimore, Maryland

Christopher C. Thompson, MD, MHES, MSc, FASGE
Brigham and Women's Hospital, Harvard Medical School, Boston, Massachusetts

Course Description

The ASGE Annual Postgraduate Course (APG), held in conjunction with DDW 2020 returns to Chicago, the Windy City. Annually, this course brings together experts from across the globe to present precise, evidence-based and outcomes-driven endoscopic management of gastrointestinal and related disorders. This will include discussions on tools and techniques, tips and tricks to achieve your own optimal outcomes every day, as well as advanced diagnostic and therapeutic endoscopy. The APG will examine innovations in endoscopy that have led to paradigm shifts in disease management and practical approaches to incorporate them into your practice. The broad spectrum of gastrointestinal endoscopy including colonoscopy, endoscopic resection techniques, enhanced imaging, ablative techniques, pancreaticobiliary endoscopy and obesity management will be covered. Integrated didactic lectures, case-based discussion, video-cases, and panel discussions with audience participation will optimize your learning experience at the ASGE APG course.

WHAT YOU WILL LEARN

Upon completion of this educational activity, participants will be able to:

- Apply new endoscopic techniques to common disease states that enhance patient outcomes.
- Determine the best approach to the management of complex endoscopic challenges.
- Integrate current quality standards into everyday clinical practice.
- Combine emerging technology with established endoscopic tools to optimize clinical results.
- Hear expert opinion on management of endoscopy-related conundrums and adverse events.

COURSE HIGHLIGHTS

- Option to register for each half-day separately, or register for the full course at a discount
- Video-case-based discussions
- State-of-the-art, evidence-based lectures
- Earn CME and ABIM MOC Points
- Renowned national and international expert faculty
- Basic, advanced and cutting-edge endoscopic procedures, techniques and management of adverse events.

WHO SHOULD ATTEND

This course is ideal for international and U.S.-based participants, including practicing gastroenterologists, surgical endoscopists, gastroenterology trainees, endoscopy nurses and technicians.
