

GI Leap: Frequently Asked Questions

What is GI Leap?

GI Leap (GI Learn Explore Advance Practice) is the name given for ASGE's new Learning Management System. With funding from the Beyond Our Walls campaign, ASGE has invested in a new and updated technology platform that helps us lay the groundwork for the future of learning for ASGE.

What does that mean to our users? It will be easier to find educational content; easier to access content on any device; and faster content delivery, especially for video-streaming.

What will I find on GI Leap?

Most ASGE Clinical and Practice Management educational opportunities are available on GI Leap, including GESAP and the complete video library. All materials for those learning activities can be found there as well. For courses, this includes faculty presentations, pre-work, videos, assessments, evaluations and course certificates. You will also find on-demand versions of courses that lend themselves to that format. GI Leap should become your first stop for ASGE educational opportunities.

What happened to all my progress from content on the OLC? What about my CME and MOC credits?

All Learner progress has been transferred to GI Leap. You will also see that all your educational history with ASGE can now be found on one transcript.

Can I access GI Leap on my mobile device?

Yes. And in May of 2018 we will be introducing the GI Leap App which will allow you to be able to utilize your content, even when you are offline. Stay tuned for more details on this iOS App!

There used to be a Claim CME menu option on the website. Where did that go?

Claiming CME and/or MOC is now part of the learning activity on GI Leap. After a CME or MOC qualifying activity is complete, you will be prompted to claim CME. There is no more need to access a separate claiming product.

I purchased Physical DVDs in the past, does GI Leap apply to me?

Yes! With the introduction of this platform, all purchasers of Physical DVD's get automatic access to the Digital version of that product, including claiming credit. This includes prior purchases as well. Just login and click My Courses and you will see the digital version is available to you.

Are DDW videos on GI Leap?

Yes. In fact, as an additional member benefit, all DDW videos have been bundled in to one package. So, if you purchased one DDW video from past DDW's, you now get all the videos (i.e. Honorable Mention, Video Plenary, etc.) from that DDW conference.

*Are Guidelines and Video Tips on GI Leap?

Not at this time. We will be looking to migrate those tools to GI Leap in the future.

Can I purchase content on GI Leap?

Yes. Online content such as videos, on-demand courses, practice management primers, etc. are available for purchase on GI Leap.

MEMBER BENEFIT: As an ASGE Member, you have access to a wide library of free content on GI Leap. You can find free clinical and practice management content as well as prior DDW videos:

- In the Catalog left-hand panel, click **Show Content by Price** and selecting **Free**.
- To locate the 2015, 2016, and 2017 DDW Video library, click the **Library** icon on the left-hand panel under *My Courses*.

How do I get started?

Open the **Getting Started with GI Leap** page for access and navigation instructions.

How can I learn more?

GI Leap is very intuitive so feel free to explore! You can also come by the Learning Lounge at DDW 2018 for a more personalized demo and Q&A.

Who do I contact if I need assistance?

Your ASGE Customer Care Team is always happy to assist you. Please email membership@asge.org or call 630-573-0600, Monday through Friday, 8:30 AM-5:00 PM CT.
